

Mapping Out Your STUDENT'S SUCCESS

We provide high school age homeschool parents who aren't sure if their student is taking the right courses, with a free, simple tool to help plan your student's high school courses to match their goals after high school.

Step 1 Make a Map

By following the link to the Best Future Finder, you will be guided through an intuitive process of selecting courses that match your students post-high school plans with the courses they should take in high school. Whether they plan to go to college, join the military, or start their career, the Best Future Finder will allow them to choose the right courses for them and once completed you will always have a copy of the course plan for your records.

Step 2 Choose Your Path

As a homeschool parent you have a wide variety of options in the curriculum that you choose to utilize as well as how you want to teach your student. CHS offers several different plans to assist you. First, you may enroll them as full-time student in our diploma program. You can also choose to enroll them in some individual courses with CHS as a supplement to other curriculum programs that you have had success with. A third option is to use your current curriculum provider and sign up for our Homeschool Admin program which allows you to track your student's progress, schedule assignment due dates, produce transcripts, build your own gradebook for each course, and storing files.

Step 3 Monitor, Motivate, and Teach

Once you have signed up based on the path that you chose above you will have the comfort of knowing that all of your administrative and guidance needs are handled. With Best Future Finder you will receive updates on your course plan as well as other helpful information like college admissions information, military requirements, and career certification information. Your Homeschool Admin will allow you to no longer worry about all of the administrative tasks such as recordkeeping, updating gradebooks, and producing transcripts; instead you will be able to stay focus on the teaching of your student and their success.

Step 4 Relax and Celebrate

With all of your planning and administrative tasks completed you will have more time to spend with your student in and out of the classroom. Plus, you will have time to celebrate their successes as they move through life.

WHY GO SOLO WHEN CITIZENS HIGH SCHOOL HAS YOUR BACK?

Sure, plenty of people navigate getting their high school diplomas all on their own. The point is that you don't have to when you have the **Best Future Finder** on your side. You don't have to feel lost when looking at course catalogs, and you don't have to feel derailed when circumstances change. You just get a simple step-by-step path that helps you earn the diploma you deserve and take hold of the future you want.
