

# Reading Improvement Support for English Learners

English Learners are the fastest growing K-12 student population in the United States. CHS Reading Improvement program provides the personalized intervention and instruction English learners need to support their literacy skill acquisition.

## Alignment with Principles to Support English Learners

CHS Reading Improvement course is a WIDA-certified resource that aligns with TESOL's "Principles for Exemplary Teaching of English Learners" and provides key features that support ELs, including:

- Texts that match English learners' proficiency levels
- Following state and national standards for language development
- Scaffolding supports to aid student progress
- Motivation for reading

# How Reading Improvement Supports English Learners

CHS Reading Improvement course provides English learners with adaptive, personalized learning and teacher-directed differentiated instruction to support reading development.

## Targeted Skills Practice

Instructional and practice activities in vocabulary, reading comprehension, and writing to support literacy skill acquisition

## Scaffolding

Builds and strengthens skills needed for fluency using patented Guided Window scaffold.

# Data Collection

Continuous data collection to identify skill support needs and customize instructional scaffolds.
